

NAME/COMPANY: Matthias Sperling

TITLE OF WORK: Do Not Be Afraid

CONTACT:

Matthias Sperling
info@matthias-sperling.com

CREDITS:

Choreographer and Performer: Matthias Sperling
Collaborator and Performer: Rachel Krische or Antonia Grove,
(dependent upon availability)

DURATION: 45 mins approx

NO. OF PEOPLE INVOLVED: 2

LIGHTING: Please provide a bright warm wash, as even as possible throughout the whole floor space, with house lights on at the lowest level that allows the audience to safely be seated. This state should be up before the audience enters the space and remain as it is until after the audience has left, without any changes whatsoever.

SOUND: There is no recorded sound in the work. The full-length version of the work includes a section in which the performers play a Moog Theremin (an electronic musical instrument). The theremin requires mains power and input into the venue's sound system through a 6.35mm (¼ inch) stereo jack plug. The company will provide the theremin, along with a 2m power cable and a 5m audio cable. The theremin will be moved during the performance.

OTHER EQUIPMENT REQUESTS: Please provide two high bar stools, preferably of identical simple design.

MASKING: Masking for this work is flexible, providing that the performers can begin out of sight and enter from upstage left.

PERFORMANCE AREA: Stage size for this work is flexible, but should generally be a minimum of 7m x 7m.
